Hrs/week saved

Data Analytics Manager with 13+ years turning manual reporting and fragmented processes into automated, governed data products. I lead an analytics function end to end — from raw files and APIs to a governed warehouse, BI and decision-ready reporting — and build the production tooling behind it in Python and Django, pairing hands-on engineering with analytics leadership.

Experience

Highlights of this work are in **Selected projects** below.

Data Analytics Manager

[Transmed](#) · [Dubai, UAE](#)

Nov 2024 — Present

Sales Data Analyst

[Transmed](#) · [Dubai, UAE](#)

Dec 2020 — Nov 2024

Data Analyst

[Perfetto Trading \(Nespresso Distributor\)](#) · [Dubai, UAE](#)

Dec 2016 — Nov 2020

Customer Service Specialist

[Al Tayer Group](#) · [Dubai, UAE](#)

Oct 2015 — Nov 2016

Customer Data Specialist

[Galereya Mobile](#) · [Kharkiv, Ukraine](#)

Feb 2013 — Oct 2015

Intern — Transport Coordinator

[AB InBev Ukraine \(SUN InBev\)](#) · [Kharkiv](#)

Aug 2012 — Feb 2013

Selected projects

Automated Data Analytics Platform — end-to-end ingestion, governed warehouse, scheduled delivery — ~100 sources/day

Internal Operations Platform (Django) — in-house suite: workflow automation, project management, role-based apps

CRM Analytics — RFMT segmentation turning millions of transactions into monthly decisions

Salesforce Promo Automation — supplier files → validated, Salesforce-ready promos — 60+ hrs/week saved

Leaflet Analyzer — vision-AI pipeline: promotional PDFs/images → structured price & discount data

WordPress Content Manager — review-first post refresh — ~106% lift in organic leads
